Upcycling Face Cream

Contains >95% of upcycled ingredients

Hydra-Leen® 8 Neroli BIO

Stabilized hydrolat, produced as a by-product from the steam distillation of essential oils. Helps to restore radiance of dull skin.

Organic Virgin Raspberry Oil

Produced with raspberry seeds which are by-products from the food industry. Rich in regenerative and protective components (omega 3, omega 6, vitamin A and E).

REDIVINE

Active ingredient, by-product of organic grapevines from one of the most important vineyards in the world. Double anti-oxidant action, protection against pollution.

KAFFAGE-BD®

Biopolymer derived from upcycled coffee by-products. Increases hydration, reduces wrinkles and hyperpigmentation.
