

HEMP SEED OIL

Cannabis Sativa

Products designed from Nature

HEMP SEED OIL

Hemp Seed Oil, INCI name **Cannabis sativa Seed Oil**, is extracted from pressed Hemp seeds.

The level of THC, the psychoactive substance found in low quantities in the Hemp plant, is heavily controlled and monitored by the competent authorities for the cosmetic market.

This ingredient is becoming more and more trendy, and is now well-known for its cosmetic benefits.

Our Hemp Seed Oil is **Made-In-France**, with a **local sourcing**. The manufacturers transform the raw ingredients (seeds) themselves in their workshops, using an **artisanal** and **family approach**. They developed new innovative machines (seed hullers) which are more respectful of the seeds.

BENEFITS

- **Ideal proportions of Omega 3 and 6** (1/4 - 3/4) : skin protection with action on dryness
- Effective **hydrating agent** and **preventing from ageing**
- Thanks to the fatty acids : efficient action on **hair hydration**
- Appealing **sensory** qualities : **refreshing** effect bringing vitality feelings, non-greasy texture and quick penetration

APPLICATIONS

Given its many benefits, Hemp Seed oil is an ally for

- **skin care** formulations:
 - ideal for mature, tired skins
 - ideal for atopic, dry skin.
- **hair care** : deep **nourishing** and **protective** action, brings **brilliance** and **vitality**
